

# Export Outlook for Grain & Feed Products

Revised FY 2006 Forecast:  \$1.6 Billion to \$18.1 Billion

## Revised FY 2006 Forecast

### Key Developments

- Coarse grain exports raised on less corn competition & increased sorghum demand from Mexico
- Strong feed demand & ethanol production support higher corn prices
- Lower wheat & rice export volumes, but higher unit values leave export value unchanged

## Export Value (\$Bil)

Includes corn gluten feed/meal
